TAIWO FRANCIS OGUNTADE

Osun state, Nigeria.

+2348103102590

taiwofrancisog@gmail.com

HIGHLIGHTS OF QUALIFICATIONS

- Bachelor of Technology in Computer Science
- IBM Full-Stack Software Developer Professional Certificate
- 2+ years hands-on experience in software development
- Strong skills in React, Next.js, Tailwind CSS, Node.js, REST APIs
- Experience developing logistics and automation systems
- Strong foundation in algorithms, databases, and software engineering principles
- Able to work independently and deliver production-ready solutions.

EDUCATION

Bachelor of Technology in Computer Science   Feb 2017 - Aug 2023

Ladoke Akintola University of Technology - Ogbomosho, Nigeria.

- Final Year Project: Construction of Automatic Examination Timetabling System Using Genetic Algorithm and Simulated Annealing. Developed a secure and scalable system to optimize examination scheduling, improving efficiency and reducing human error.
- Relevant Coursework: Software Engineering, Data Structures & Algorithms, Database Systems, Artificial Intelligence, Computer Networks.

CERTIFICATION

IBM Full-Stack Software Developer Professional Certificate   June 2025 - Oct 2025

IBM / Coursera

- Covers front-end development, back-end APIs, cloud deployment, databases, DevOps tools, and full-stack project development.

WORK EXPERIENCE

Software Developer - Opa Concept Haulage & Transportation Ltd - Sagamu, Nigeria
Nov 2023- Present

- Built and maintained internal web tools for fleet management, trip scheduling, and delivery tracking.
- Developed automation features for invoicing, reporting, and trip documentation to reduce manual work.
- Integrated Google Maps APIs for route planning and vehicle location lookup.
- Designed responsive UIs using React and Tailwind CSS, and managed data with Firebase/MySQL.
- Collaborated with operations team to gather requirements and continuously improve system performance.

Front-End Developer (Industrial Training, as part of B.Tech program)- ASL Tech, Ibadan, Nigeria
Apr 2021 - Oct 2021

- Assisted in front-end development tasks and debugging to support senior developers.
- Gained exposure to blockchain integration and emerging web technologies.
- Learned to apply agile development principles in real-world projects.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Python, C#, C++, Solidity
- Frameworks & Tools: React.js, Next.js, Tailwind CSS, Bootstrap, Node.js, Git
- Databases: MySQL, MongoDB, Firebase
- Other: UI/UX Design, Agile Development, REST API Integration
